

## **Apprenticeship opportunity at Hauck Heat Treatment Ltd - Telford**

We have a vacancy for a Heat treatment Laboratory Apprentice on a fully supported Apprenticeship scheme.

The successful candidate will work as part of the technical support team in the Laboratory areas and will undertake hardness testing, microstructure evaluation and laboratory processes.

Training will be provided through the apprenticeship framework supported by on the job training from a strong technical team at the plant. As a team member you will be fully integrated into plant activities including production, quality, logistics and process development.

At the end of the 12 month apprenticeship, you will have a good understanding of how a modern forward looking engineering company functions and have the opportunity to further develop your skills and career within Hauck UK.

Skills required:

- Engineering aptitude & interest
- Computer literate – conversant with Microsoft office applications.
- Good GCSE's including English, Maths and Science at grades A to C / Level 9 - 5

This is an excellent opportunity for an enthusiastic and committed individual looking for a career in the engineering industry. Hauck UK are working with the Apprenticeship provider Nova Training, to provide this apprenticeship and they will also work with you to enable you to obtain the following qualifications;

- Level 2 NVQ Diploma in Performing Manufacturing Operations

If you feel you have the skills and are interested in applying for this apprenticeship please send your CV to Karen Turner, HR Manager UK at [Karen.turner@hauckht.com](mailto:Karen.turner@hauckht.com)
