

Technical Engineer - Letchworth

Hauck Heat Treatment UK provide Heat Treatment Services and Solutions to all major industries including Aerospace, Automotive, Motorsport, Defence, Oil & Gas, Tool & Die, Construction and Power Generation. We provide a wide range of treatments to metals from six sites located throughout the UK.

Due to continued growth we now are looking to recruit a Technical Engineer to work at our Letchworth site. This is an exciting opportunity for an individual who is enthusiastic and committed to a career in an engineering industry and has some proven experience in this area.

Working as part of a strong engineering team, you will be responsible for developing processes and procedures to meet the changing needs of our customers. You will be at the forefront of new technologies and will receive training to enhance your current skill level. This role will initially support the HIP (Hot Isostatic Pressing) process, so individuals who have knowledge and/or experience in this area will be at a distinct advantage.

You will provide technical support to all internal departments to maintain and improve processes and product Quality standards. This opportunity will enable you to develop your skills in problem solving through innovative techniques and you will have the ability to use unique instrumentation and software. You will work within the Quality control standards of NADCAP, AS9100 and ISO 9001 and be part of a team who have been awarded the SC21 silver award in recognition of the performance standards delivered by the team.

Qualifications and Experience required

- Educated to degree level BEng, BSc or equivalent or proven industry experience within an engineering/mechanical manufacturing environment
- Knowledge of materials and process will be an advantage
- Ability to demonstrate excellent presentation, communication and inter-personal skills
- Ability to read Technical drawings
- Ability to work under pressure to meet customer deadlines
- Genuine interest and enjoyment in engineering and resolving technical problems

If you feel you have the required attributes and experience for this role, we will offer a competitive salary and benefits package and the opportunity to develop your career. Please send your CV to Karen Turner, HR Manager UK – email Karen.turner@hauckht.com or submit via the website link.
